3:15pm.

From: Jerry Swift, U.S. Nuc. Reg. Comm.
To: Shelley W.

FTS 492-0609

He asked what happened to Westlake pkg. that MDNR developed & "how was it?"

Told him it was submitted to us, reviewed & sent to HQ who makes decision. Until decision is made, its pre-decisional info & can't be released. I could find out what's next update is scheduled & be could call back to see if Westlake was included.

Called HQ & Irene Leifer said w late October proposal

Told this to Mr. Swift & told John Madras of above conversation.
